The Comprop Guernsey Rally has a strong commitment to mitigate the environmental impact of the event. In order to achieve this, we have partnered with Carbon Positive Motorsport who is the world's first carbon offsetting provider dedicated to motorsport.

Carbon Positive Motorsport provide high quality carbon offsets from UK based certified woodland and rewilding projects. These projects are certified by the UK Woodland Carbon Code and the event's offsetting will be publicly recorded in the UK Land Registry.

In partnering with Carbon Positive Motorsport, we are offering our competitors the opportunity to fully offset their carbon emissions from their fuel usage. In addition to this, we are purchasing a Carbon Positive level of offsetting, which creates a 25% higher level of offsetting than the emissions created and therefore a much greater long-term mitigation.

The entry fee includes participation in this initiative for the benefit of the environment, the perception of our sport, and the support of our community in enabling the event to run. However, if competitors wish to opt out of this valuable way of protecting our planet, please contact the organisers.
